What is ABLE?

What is an ABLE account?

ABLE accounts are tax-advantaged savings and investment accounts for individuals with disabilities. Earnings grow tax-free when used to pay for expenses which enhance the health, independence or quality of life of the individual with a disability. They were created as a result of the passage of the Stephen Beck Jr., Achieving a Better Life Experience Act of 2014, better known as the ABLE Act. The individual with the disability is the account owner. The account owner, family, friends, an employer or the account owner's Special Needs Trust (SNT) may contribute funds into the account. ABLE account owners - those who receive public benefits and those who do not - may save for qualified disability expenses related to transportation, health care, housing, education, retirement and more.

Why the need for an ABLE account?

Millions of individuals with disabilities and their families depend on a variety of public benefits for income, health care and food and housing assistance. Eligibility for these public benefits requires meeting a means test that limits eligibility and requires individuals to report more than \$2,000 in cash savings, retirement funds and other items of significant value.

ABLE accounts allow eligible individuals to save and invest money, largely without affecting eligibility for public benefits; Medicaid eligibility is not affected by ABLE savings in any amount up to the individual state 529 savings limit.
